Dikeogu Solomon

SUMMARY

Skilled Frontend Developer with expertise in HTML, CSS, JavaScript, TypeScript, and modern frameworks such as [React.js](#), React Native, Bootstrap, Tailwind CSS, and Next.js. Adept at creating responsive, user-friendly web applications with a focus on performance and scalability. Proven experience in collaborating with teams to deliver high-quality projects.

WORK EXPERIENCE

SAGE HUB

Front End Developer

October 2024-January 2024

- Designed and implemented responsive interfaces using React, JavaScript, and Tailwind CSS.
- Optimized application performance, enhancing speed and accessibility for diverse users.
- Collaborated with backend developers to integrate APIs, enabling real-time service updates and booking functionalities.
- Actively participated in team discussions to align the platform's design with organizational goals.

AREN-WELLS WEBSITE

JUNE 2024 - PRESENT

Front End Developer

- Developed and maintained user interfaces for web applications using React.js, TypeScript, and Next.js.
- Collaborated with designers to implement responsive and visually appealing UI components.
- Utilized Bootstrap and Tailwind CSS for consistent and efficient styling.
- Conducted unit testing with Jest to ensure code quality and reliability.
- Managed version control using Git and GitHub, facilitating seamless collaboration and code integration

EDUCATION

ALTSCHOOL AFRICA, LAGOS

SEPTEMBER 2023 - AUGUST 2024

Diploma in Front-End Development

PROJECTS

CHATTER+

April – July 2024

- Developed CHATTER+, a social networking platform enabling users to create text-based posts with images, securely stored using Firebase Firestore.
- Implemented user authentication with secure signup, login, and password recovery using Firebase Authentication to ensure data protection for all users.
- Designed a personalized dashboard for users upon login/signup, enhancing user experience and accessibility.
- Enabled user interactions such as commenting, liking, and sharing content, fostering engagement and community building.
- Built using Next.js, Tailwind CSS, JavaScript, and Firebase Firestore, ensuring a responsive design, efficient development, and robust performance.
